All European countries set regulations which define the main lines of tourism policy.

The hotel rules concerning the inside baggage handling include the compulsory presence of luggage trolleys for moving guests' baggage.

This rule concerns hotels of any category level – from ☆ up to ☆☆☆☆☆– either if the service is performed by hotel employees or if it is carried out by the guests themselves.

Always attentive to any market requirement, **VDM** has introduced in his Hotel "Classic" Line two luggage trolleys, namely "Amalfi BAG" and "Venezia BAG", very strong but not heavy, which can meet all capacity needs according to the different sizes of the hotels

Bag holder kit (ref. 90061 SET)
can be applied to both models

Characteristics:

- 1. Clothes holder bar
- 2. Tube 25 x 25 x 1,5 mm – anti-scratch paint
- 3. Non-skid safety mat
- 4. Bag holder kit
- 5. Anti-mark bumper
- 6. Two wheels ø 150 with brake
